

STOP CLEANING YOUR GUTTERS FOREVER!

Grater Gutter Guard® (G³) is the economical and effective method to prevent clogged gutters.

G³ protects your home. No more damage to your home's fascia, soffits, foundation or basement. G³ is designed to control water run off from your gutters.

Above all, G³ is for the safety minded – keeping the homeowner off the ladder. In other words: G³ is less expensive than one trip to the hospital and much less painful!

HOW IT WORKS:

Like a cheese grater, water hits the raised holes and goes into the gutter – 100%. G³ works no matter how much debris is on top of the cover – no runoff ever!

SIMPLICITY:

G³ is installed over your existing gutters and will not detract from the beauty of your home.

SELF CLEANING:

As it rains hard, G³ is designed to keep the leaves out of your gutter as well as keeping them maintenance free.
